PROCEDURE FOR ACCESS TO SAFWAA MANAGED PROPERTIES

1. The fisheries Management Officer, or his/her approved delegate, has the sole authority to approve access to any of our properties. Access can only be gained by contacting the above offices, requesting permission to access with details of time/day/date, and number and names of SAFWAA members requiring entry.
2. The officer will record details in the club records.
3. If the request water is fully allocated on the day (ie already has maximum anger usage), an alternative water will be mutually discussed for access.
4. Details of catches and releases should be reported to the fisheries officer as soon as possible to assist with future stocking.
5. Arrival and departure to be within daylight hours.
6. Each member will be issued with a large dash card. While fishing a SAFWAA water, members are required to leave this card in the front window of their vehicle.
